

BLUE LAKE RANCHERIA WATER QUALITY ORDINANCE

07-2000

The Business Council of the Blue Lake Rancheria, empowered by the tribal Constitution to enact ordinances, hereby ordains the following:

§1. Findings And Declarations

The Tribe finds and declares that —

- (a) It wishes to eliminate all discharges of pollutants into the waters of the Blue Lake Rancheria and other territory over which the Tribe has jurisdiction.
- (b) Elimination of all discharges of pollutants into the waters of the Blue Lake Rancheria and other territory over which the Tribe has jurisdiction is necessary at this time to maintain water quality for consumption and other domestic purposes by residents of the Blue Lake Rancheria and other territory over which the Tribe has jurisdiction.
- (c) Wetland conservation is a matter of concern to the Tribe, since loss or damage to a wetland may deprive the Tribe, tribal members and other residents of the Rancheria and other territory over which the Tribe has jurisdiction of the many benefits associated with wetlands, including flood and storm control, wildlife habitat, protection of groundwater resources, pollution treatment, erosion control, cultural and historic properties, and recreational enjoyment.

§2. Definitions

For the purposes of this Ordinance, the following words shall have the following meanings:

- (a) The term "Business Council" means the Business Council of the Blue Lake Rancheria.

- (c) The term "person" means any individual, corporation, firm, partnership, joint venture, association, social club, estate, trust, the United States, Tribe, State, County, City, district or other political subdivision of any state, or any other group or combination acting as a unit.
- (d) The term "pollutant" means any substance that will alter the quality of the waters of the Blue Lake Rancheria or other territory over which the Tribe has jurisdiction.
- (e) The term "quality of the water or waters" means any chemical, physical, biological, bacteriological, radiological, and other properties and characteristics of water which affect its

use.

- (g) The term "Tribal EPA" means the Tribal Environmental Protection Agency of the Blue Lake Rancheria.
- (h) The term "water or waters" means any water, surface or underground, located on or running through the Rancheria or other territory over which the Tribe has jurisdiction.
- (i) The term "wetland" means land transitional between terrestrial and aquatic systems where the water table is usually at or near the surface or the land is covered by shallow water. For the purposes of this Ordinance wetlands must have one or more of the following three attributes:
 - (1) at least periodically, the land supports predominantly hydrophytes;
 - (2) the substrate is predominantly undrained hydric soil; and/or
 - (3) the substrate is nonsoil and is saturated with water or covered by shallow water at some time during the growing season of each year.

The term for wetlands as used in this Ordinance is drawn from a U.S. Fish and Wildlife publication titled "Classification of Wetlands and Deepwater Habitats of the United States," dated December, 1979. Where clarification of the term wetlands is needed, the explanation in this publication, as amended from time to time, shall be controlling.
